Opinions expressed Views and opinions expressed on this website are those of the authors or writers and not necessary those of Worldsource Wealth Management Inc.

Leverage Risk Using borrowed money to finance the purchase of securities involves greater risk than a purchase using cash resources only. If you borrow money to purchase securities, your responsibility to repay the loan and pay interest as required by the loan's terms remains the same even if the value of the securities purchased declines.

Leveraged or inverse-leveraged ETFs ETFs may have exposure to aggressive investment techniques that include leveraging, which magnify gains and losses and can result in greater volatility in value and be subject to aggressive investment risk and price volatility risk. ETFs are not guaranteed, their values change frequently and past performance may not be repeated. Please read the prospectus before investing.

Mutual Funds Important information about a mutual fund is contained in its simplified prospectus. Please obtain a copy from your Investment Advisor and read it carefully before investing. Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the fund specific simplified prospectus or the fund facts before investing. Mutual funds are not guaranteed and are not covered by the Canada Deposit Insurance Corporation (CDIC) or by any other government deposit insurer. There can be no assurances that the fund will be able to maintain its net asset value per security at a constant amount or that the full amount of your investment in the fund will be returned to you. Fund values change frequently and past performance may not be repeated.

Mutual fund rate of return disclosure The rate of return that may be provided on this website is used only to illustrate the effects of the compound growth rate and is not intended to reflect future values of the mutual fund or returns on investment in the mutual fund. The indicated rate of return are the historical annual compounded total returns including changes in share or unit value and reinvestment of all dividends and distributions and does not take into account sales, redemption, distribution or optional charges or income taxes payable by any security holder that would have reduced returns.

Labour Sponsored Investment Fund Labour Sponsored Investment Funds ("LSIF") are not guaranteed, their value changes frequently and past performance may not be repeated. Availability and amounts of tax credits are subject to certain conditions and are generally subject to recapture, if shares are redeemed within eight years.

Restricted share terms disclosure Restricted shares have rights that differ from those attached to an issuer's common shares and that holders of restricted shares receive material sent to holders of common shares.

No Reliance on Forward-Looking Statements This Site and linked sites may include forward looking information about the operations, objective and expected financial results of certain entities. Such statements are inherently subject to uncertainties arising from a variety of factors, including but not limited to, legislative or regulatory changes, competition, technological developments and global economic and financial conditions. You acknowledge and understand that actual results, performance or achievements could differ materially from any future results, performance or achievements that may be expressed or implied by such forward-looking statements and you will not unduly rely on such forward-looking statements.

Investing involves risk. Equity markets are volatile and may increase or decrease in response to economic, political, or other developments. Fixed-income securities are sensitive to interest rate movements. Diversification may not protect against market risk.
